

## ABOUT CARE

CARE College of Engineering is an eco-friendly environment amid the sparkling beauty of nature. The Campus is a self-sufficient unit catering to all sorts of needs of staff & students. It is aesthetically designed with elegant buildings complimented by wide open spaces, broad roads & abundant greenery with a view to create a pleasing and inspiring ambiance for the students.

## ABOUT CONFERENCE

The objective of this conference is to bring together researches, engineers, academicians as well as industrial professionals in the domain of interest from around the country to present their research work and development activities in the field of electronics and communication engineering. The aim of this conference is to provide a scientific forum for all scholars around the country and enable the interactive exchange of state of the art knowledge ■

## ABOUT ECE DEPARTMENT

The Department of Electronics and Communication Engineering was started in the year 2010 with an intake of 60. Learning is a new, high level and happy experience in this department, which provides quality education and hands on training to the students through qualified faculty and unparalleled infrastructure. The Department provides a sound foundation to the students wishing to pursue a career in Electronics, Communications, Control Systems, Robotics or Sensor Systems, through a diverse range of theoretical skills and practical experience, presented in the context of real time applications and design experience. The students are exposed to the practical and industrial aspects of the subjects through laboratory work and periodic industrial visits
